

U of T Spine Research Update Tuesday January 28, 2014, 5:30-7:30:
 Rebecca MacDonald Centre for Arthritis and Autoimmune Diseases, Large Conference Room L2-208A, 60 Murray St,
 Mount Sinai Hospital, Toronto.

Agenda

5:30 – 5:35 – Welcome/ introductions and Purpose for meeting- Karl/Carlo

5:35- 7:20 - Presentations -5 slides- maximum 5 minutes with 3 minutes questions- Karl/Carlo Moderator

7:20- 7:30 - Summary-Wrap Up- Overview of meeting – Jason/Karl/Carlo

Schedule of Presenters and Presentations-

Presenter	Topic	Supervisor
Isabelle Thibault Isabelle.Thibault@sunnybrook.ca	<i>Challenges Defining Response after Stereotactic Body Radiotherapy (SBRT) in Spinal Metastases: A report from the SPANO group</i>	Dr Arjun Sahgal
Chia-Lin Tseng (Eric) chia-lin.tseng@rmp.uhn.on.ca	Vertebral compression fracture after spine stereotactic body radiotherapy (SBRT): analysis of predictive factors for de novo fracture and fracture progression	Dr. Arjun Sahgal
Christina Goldstein drcgoldstein@gmail.com	"Hemangiomas of the Spine: Results of Surgical Management and Prognostic Variables for Local Recurrence and Mortality in a Multicentre Study".	Dr. Michael Fehlings
Aria Nouri arianouri9@gmail.com	Quantitative analysis of MRIs in Cervical spondylotic myelopathy patients	Dr. Michael Fehlings
Spyridon Karadimas spyros.karadimas@mail.utoronto.ca	Riluzole enhances the beneficial impact of decompression in a clinically relevant model of cervical spondylotic myelopathy	Dr Michael Fehlings
Rohit Amritanand rohit@cmcvellore.ac.in	?	Dr Raj Rampersaud
Danielle Southerst dsoutherst@cmcc.ca	<i>Evaluation of four novel self management strategies for neurogenic claudication: Protocol for three RCTs</i>	Dr Carlo Ammendolia
Lise Rok eerrok@gmail.com	<i>Non operative treatments for neurogenic claudication with lumbar spinal stenosis: A Cochrane Review</i>	Dr Carlo Ammendolia
Venkat Ganapathy Drganapathy08@gmail.com	?	Dr Albert Yee
Jonathan Iu jonathan.iu.utoronto@gmail.com	<i>Versican expression by inner and outer annulus fibrosis cells is mechanosensitive</i>	Dr Rita Kandel
Jared Wilcox jared.wilcox@mail.utoronto.ca	Evaluating stem cell therapy in a translational rodent model of cervical spinal cord injury	Dr. Michael Fehlings
Jason Bonar jbonar@cmcc.ca	<i>Conservative interventions for hypermobility syndrome: Protocol for a systematic review</i>	Dr Carlo Ammendolia
Karl Zabjek K.Zabjek@utoronto.ca	<i>Simulation laboratory for spine surgery : an overview</i>
