

**University of Toronto - Department of Surgery - Division of General Surgery
North York General Hospital - Community Surgery Rotation
IN-TRAINING EVALUATION REPORT**

Rotation Service: _____
Period : _____
Resident: _____
Teacher/Supervisor: _____
Hospital/Site: _____

The completion of this ITER is based upon resident level specific goals and objectives described in the Goals and Objectives document. <http://generalsurgery.utoronto.ca/edu/residency/goals.htm>

MEDICAL EXPERT:

1 - Unsatisfactory 4 - Exceeds Expectations
2 - Below Expectations 5 - Outstanding
3 - Meets Expectations N/A - Not Applicable

1 2 3 4 5 N/A

1. Breast Disease

Demonstrates an understanding of relevant breast anatomy and physiology.						
Demonstrates an approach to the workup and management of breast masses.						
Understands the workup of mammographic abnormalities.						
Demonstrates an ability to perform the steps in a sentinel lymph node biopsy, lumpectomy, simple mastectomy, and axillary lymph node dissection as appropriate for level of training.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified.

1 2 3 4 5 N/A

2. Colon and Rectal Surgery

Demonstrates an understanding of the relevant anatomy and physiology of the large bowel.						
Demonstrates an approach to benign and malignant large bowel and anorectal disease						
Demonstrates an ability to perform the steps in open and laparoscopic colon surgery as appropriate for level of training.						
Demonstrates an ability to surgically manage benign anorectal disease as appropriate for level of training.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified.

1 2 3 4 5 N/A

3. Endoscopy

Understands the indications and potential complications of lower gastrointestinal endoscopy including colonoscopy and sigmoidoscopy.						
Demonstrates an ability to perform the steps in colonoscopy including advancing the colonoscopy to the cecum, biopsying polyps and suspicious lesions, and retro-flexing the scope in the rectum as appropriate for level of training.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified.

1 2 3 4 5 N/A

4. Benign General Surgery

Demonstrates an understanding of the relevant anatomy and physiology of the abdominal wall, hepatobiliary system and appendix.						
Demonstrates an ability to perform the steps in an open inguinal and umbilical hernia repair as appropriate for level of training.						
Demonstrates an ability to perform the steps in a laparoscopic cholecystectomy as appropriate for level of training.						
Demonstrates an ability to perform the steps in a laparoscopic appendectomy as appropriate for level of training.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified.

1 2 3 4 5 N/A

5. Consultation

Demonstrates an appropriate and efficient workup and diagnosis of cases referred by the emergency department and in-patient services.						
---	--	--	--	--	--	--

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified.

COMMUNICATOR:

1 2 3 4 5 N/A

Listens and communicates effectively with patients and families, demonstrating sensitivity to ethnic, cultural, and spiritual values.						
Provides patients and families appropriate therapeutic risk/benefit information for informed decisions.						
Communicates effectively with physicians in the same team and referring physicians.						
Communicates effectively with other health care providers, especially nurses.						
Produces accurate, timely and appropriate written records such as written orders, progress notes, and discharge summaries.						
Creates timely, concise, accurate operative reports.						
Produces well organized letters and reports that provide clear directions to referring physicians and family doctors.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified

COLLABORATOR

Consults and collaborates effectively with patients, other physicians and a multidisciplinary team of expert health care professionals to provide optimal patient care, education and research.

Yes

No

Consults and collaborates effectively with patients, other physicians and a multidisciplinary team of expert health care professionals to provide optimal patient care, education and research. Recognizes and understands the roles and expertise of other health professionals including:

Yes

No

1. Physicians.
2. Nurses.
3. Other Health Care Professionals.

MANAGER

1 2 3 4 5 N/A

Understands the structure, financing and functions of health care organizations, including individual clinical practices and local and national organizations.						
Uses broad sources of information and technology to maximize efficiency.						
Uses health care resources appropriately and efficiently.						
Leads or contributes to the health care team, delegates and distributes tasks fairly.						
Demonstrates an understanding of the relationship between a surgeon in community practice and the hospital.						
Demonstrates an understanding of the aspects of managing an independent office in the community.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified

HEALTH ADVOCATE

1 2 3 4 5 N/A

Demonstrates knowledge of primary and secondary prevention of diseases and advises appropriate interventions.						
Demonstrates awareness and supports the activities of local and national organizations promoting health.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified

SCHOLAR

1 2 3 4 5 N/A

Motivated and interested, reads around cases, and makes appropriate use of educational resources, recognizes need for life-long learning.						
Analyzes and interprets the validity and applicability of evidence in the medical literature.						
Facilitates the learning of patients, students, colleagues and other health professionals.						
Participates in academic activities of the service.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified

HEALTH PROFESSIONAL

1 2 3 4 5 N/A

Recognizes the predominant importance of his or her personal responsibility in the care of his or her patient.						
Delivers the highest quality care with integrity, honesty and compassion. Sensitive to gender, cultural, racial and societal issues.						
Exhibits proper personal and interpersonal professional behavior.						
Understands and adheres to legal and ethical codes of practice, including confidentiality and informed consent.						
Demonstrates insight into his or her limitations and is responsive to constructive feedback.						

COMMENTS: Please give examples and elaborate on strengths and weaknesses identified

OVERALL COMMENTS:

Strengths:**Weaknesses:**

1 2 3 4 5 N/A

Overall Evaluation of Resident's Performance						
--	--	--	--	--	--	--

Does the trainee perform at the expected level in all domains? **Yes** **No**

If no, please elaborate below

Does the trainee perform at the expected level in the operating room? **Yes** **No**

If no, please elaborate below

Please select other teachers/supervisors who contributed to this evaluation:

None

Overall Competence

- 1 – Fails to meet expectations in most/all domains; overall severe fail for the rotation
- 2 – Poor or marginal performance generally failing to meet expectations in key domains (Medical Expert, Manager, Professional); overall fail for the rotation
- 3 – Generally meets expectations in most domains with occasional lapses or in a key domain (Medical Expert, Manager, Professional); overall pass for the rotation
- 4 – Exceeds expectations in key domains (Medical Expert, Manager, Professional)
- 5 – Consistently superior performance in all domains

Strengths (provide narrative)

Weaknesses (provide narrative)
