

Are you a Resident in a
Canadian Residency Program?

You're Invited to
Join the Royal College!

Resident affiliation is valuable, informative and free!

We encourage residents to join the Royal College free-of-charge and play an active role in the organization during their residency and throughout their specialist careers.

Benefits for Resident Affiliates

Resident Affiliates can carry forward MOC Credits earned during residency

As of July 1, 2013, Residents who are affiliates of the Royal College and document learning activities in MAINPORT during their Resident MOC cycle can transfer up to a maximum of 25 credits in each section of the MOC Program into their first MOC cycle following certification.

Let us support your development

In addition to the benefit of being able to carry forward 75 MOC credits into the first MOC Cycle, Resident Affiliate status also allows you to:

- **Stay up-to-date with specialty medicine:** Free access to the Royal College's secure web portal, *Dialogue* e-newsletter, CEO's Messages and more;
- **Receive timely information:** Stay up-to-date concerning eligibility, fees and deadlines for assessment of credentials and training. Connect with the Royal College Services Centre for support and assistance with MAINPORT, MOC Program, and Royal College Fellowship questions;
- **Access resident-only awards and grants:** The Royal College recognizes resident leadership and research across Canada;
- **Contribute to the strategic direction of the profession:** Residents provide vital input through Council, committees or e-surveys;
- **Receive discounted rates:** Save money on CanMEDS publications and learning tools;
- **Affiliate with more than 42,000 like-minded medical specialists.**
